This exclusive oasis of luxury in the New Golden Mile district is a project of just 22 residences, where the harmony of nature intertwines with modern design and panoramic sea views.

The spacious apartments and penthouses are designed with the highest quality finishes: large-format porcelain tiles, non-slip stoneware on the terraces, smart LED mirrors in the bathrooms with thermostatic showers, and open-plan kitchens equipped with premium appliances. Floor-to-ceiling windows will flood the interiors with light. The penthouses will feature solariums with private plunge pools. Residents will have access to smart home systems and sustainable solutions, such as rainwater harvesting.

Communal areas focused on wellness will be available to residents: a heated outdoor pool surrounded by Mediterranean gardens, a yoga and fitness room with a sauna and steam room, a co-working space, and a full concierge service with services such as cleaning. Controlled access and organic gardens create a boutique atmosphere where every detail promotes relaxation, inspiration, and harmonious living surrounded by nature. This development is synonymous with luxury, where proximity to the sea and greenery combines with exclusive amenities for discerning residents.
