The project includes modern two- and three-bedroom apartments, designed to provide maximum comfort and functionality. Large windows and a well-thought-out interior layout guarantee ample natural light and a pleasant living space. Each apartment will have a terrace, perfect for relaxing. The interiors will be finished in an elegant style - with light floors, modern joinery, and a fully equipped kitchen with appliances. The building will have an elevator, air conditioning, and high-speed fiber-optic internet. Eco-friendly solutions, such as an aerothermal system, will reduce maintenance costs and protect the environment. The excellent location - surrounded by shops, restaurants, schools, and public transportation - completes the package. This is a unique proposition for both those seeking comfortable housing near the sea and investors.
