Mint Property is pleased to present a house in a wonderful area of the Wolski forest with a usable area of 600 m².

The house was built in 1974, unfortunately it has not been finished. Modern shape gives great opportunities for expansion, as well as finishing according to your own vision and recognition.

The area of the plot is 4300 m², out of which 200 m² deep into the plot there is the possibility of expanding the house itself.

The remaining part of the plot includes a forest along with various gorges that give the estate itself an exceptional climate. In the area grow beautiful limes, which during the flowering period give an unforgettable fragrance experience.

Adjacent houses are very nice manors and high standard houses.

The property itself has three floors, it was built from the highest quality bricks, therefore the solid and foundations are durable and ready to finish.

Lokalizacja:

The house and the location of the plot is one of a kind, in the near distance shops, churches, bus stops and everything that is needed for a comfortable life, but not disturbing the peace prevailing in the property itself.
