Investment description Piasta Park:

The complex of 3 buildings is the next stage of the popular and well-selling investment carried out by a very experienced developer in Krakow. A distinguishing feature of other investments is the plenty of greenery around, apartments with a view of the green park. This provides a lot of recreational space, enabling active recreation of current and future residents of the estate. Perfectly developed infrastructure (lots of shops, kindergartens, schools, business centers, service outlets), connected by good communication with the city center (tram terminus in the Piastów housing estate - direct tram to the center of Krakow), makes it an ideal place for those who want a stepping stone from the hustle and bustle of the city, while maintaining close contact with it. In the near future planned construction of a beltway for Warsaw. Park Piast is also a beautiful architecture of buildings with many balconies, terraces and home gardens. All these elements create a coherent and modern housing estate, ideal for people who value original solutions.
