The "Pianissimo" apartment building has a 5-star standard. The investment has been designed and finished with care for the smallest details. The façade format and interior finishing elements are a combination of modern design and exceptional attention to detail. It will be a place for people who value prestige, artistic courage in breaking stereotypes and perfectionism. The building and adjacent area are monitored and protected 24/7.

Pianissimo was established in a charming place with a view of the panorama of Krakow and the Vistula River in the very center of the Kraków-Grzegórzki district. The proximity of the city center and the location of the investment in a quiet area with a nearby shopping center or theater are undoubtedly the advantages of this investment. The advantage of the location of the building is the ability to quickly get to any part of Krakow due to the close location of the main transport hub which is Rondo Grzegórzeckie and Rondo Mogilskie. It's only a 7 minute walk to the full energy of New Square.
